

In reference to Low Power FM:

My radio station preference is K-LOVE. This station has benefited me in many ways. It has brought me inspiration in my daily life. It improves my mood and serves as a common bond and entertainment for me and my family. Do not displace K-LOVE from our community. This radio station is a pillar and sets a wonder standard in our community by promoting community and love. K-LOVE is not commercialized and benefits the community it serves by allowing them to have a station they can hear music with family values without having to worry about what their children may hear.
